STREET INDEX
N.B. The Map is divided into quarter-mile squares by lines running North-South and East-West. To find a street or public building, run the letter and number against the index, then find the corresponding letter and number in margin of Map and follow the square horizontally to the vertical line. The required name will be found in the square of intersection. Thus, McGill St. 29 will be found in the square bounded by 29th St. and vertically in line with 13.
