Dear Sir:--

In connection with contract for Turbine Pump and Belliss-Morcom Engine, we are about ready to make delivery, and would draw your attention to the fact that the contract provides for the building that is to receive this machinery to be properly roofed, lighted and heated at least four (4) months before time specified for completion of contract.

Yours very truly,

The John McDougall Caledonian Iron Works Co. Limited.

The Atlantic Cable Directory CodesJOSEPH WARD & CO.
MERCHANTS.115 Place Youville
Montreal, Oct. 22nd., 1908.To the Chairman Water Committee,
City.

Dear Sir:-

As you are no doubt aware ST. Andrews, St. Georges, St. Louis, and St. Lawrence wards did not get a fair share of the permanent street pavement out of this years allotments, although a generally desire was expressed by many Aldermen that these Central wards would not be neglected but at the last minute when the appropriation was being made by the finance committee Mr. Janin informed the committee that many of the Streets in these divisions. that needed permanent pavements were not properly piped.

This knocked all further argument out and the principal streets were scored off the list for that reason, but it was understood, however, that such streets would be piped without delay this year and certain appropriations were put through for that purpose, but the season is passing and I see no work being done on Stanley, McKay, Fort, Lagauchetier ^{Drummond} Cathcart and Alexander Streets. I would therefore draw your attention to the need and the justice of the water committee getting the necessary money to pipe these streets this fall.

It will not be right to spend all the money rightfully belonging to these wards, because there is no provision made to correct the needs ^{pipings} of these streets. I would therefore ask your committee that the proper ^{machines be set in motion for ways & means to pipe} ~~signs be put down~~ on these streets this fall so that they can be properly paved next year. *W. J. Ward*

Yours truly,

Yours truly,

Respectfully,
Robert J. Dines

These streets are not on the list of streets that fall so that they can be properly
of these streets. I would therefore ask your committee that the proper
to these words, because there is no provision made to correct the names

It will not be right to spend all the money right off the bat

City Hall.

Dear Sir:-

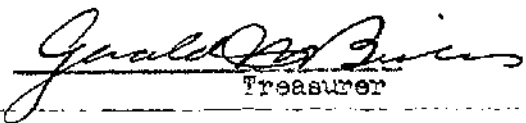

On the writer's return to town he finds your letter of the 15th. inst. in reference to connection from the high pressure main to our building, and also one from the Fire Underwriters asking us to have this connection made.

May we ask you if the Water Committee has come to any definite decision in this matter?

We remain,

Yours very truly,

HENRY BIRKS & SONS LIMITED

Treasurer

Superintendent
Water Department
Montreal.

Dear Sir

I understand that the City intends putting down a permanent sidewalk in front of 199 Marie St. - (which house is my property)

Before this is done I would like your department to put a new & larger main into the house, as the present one is old & seems choked up, & the water supply is not so good as it might be.

I also understand that there is no charge to the proprietor for replacing these mains.

Will you kindly let me hear from you on the matter & oblige.

Yours truly,
J. R. Fair

Monsieur

Nous avons fait les pués nécessaires
& nous avons découvert que la fuite d'eau
dont se plaint le D^r Dubeau au coin
de la rue St Denis & Sherbrooke était sur
son service au raccordement de son
tuyau, avec celui de la Corporation.
Ce service a été réparé par son plom-
bier & maintenant, l'eau ne coule plus.

Respectueusement Vôtre

Ville

Cher monsieur,

Il pénètre beaucoup d'eau
par la rue Sherbrooke dans le soubassement de ma maison "Le Salaberry"
coin Sherbrooke et St. Denis, et le plombier que j'ai consulté, me dit
qu'il doit y avoir un tuyau de brisé dans la rue ou sous le trottoir.
Comme je suis à agrandir ma propriété et que cette eau nous ennuie,
j'espère qu'il vous sera possible d'envoyer quelqu'un demain pour
voir où est le défaut.

Bien à vous,

E. Dubeau

Dear Sir

I received to day the enclosed - I understand from a Phone Conversation with Mr. Hecker. You want to know why I did not put in a 1st service.

The letter was dated the 20th October and sent me by you, I replied on the 31st Oct. On the 16th Nov I received instructions to put in a 6th service only.

There being no valves in stock and being very busy Mr. Hecker helped me out by doing the work on the 9th Dec.

No order was received by me from your office to put in the 1st service.

On the 9th Dec^r had a conversation with me about a domestic service and in a casual way I told him there were not in use a service in each corner of the building, also were not putting in services for domestic use under your orders being short of money, which order up to date has not been countermanded.

Yours Resp
J. Thompson

VIS-A-VIS LE BUREAU DE POSTE.

TELEPHONE BELL: MAIN 5700. 5701.

Montreal, 28 Octobre 1908

A Monsieur le Président et
Messieurs les Membres de la

Commission de l'aqueduc,
Hotel de Ville,
MONTREAL.

Messieurs, -

Le 18 septembre dernier, j'avais l'honneur de vous écrire au sujet de la pose des tuyaux pour la fourniture de l'eau sur la rue Papineau entre les rues Mont-Royal et Gilford.

J'ai obtenu de la Cité de Montréal un permis de construction à cet endroit, et j'y ai érigé quatre logements qui sont maintenant prêts pour l'occupation, et il m'est impossible de les louer et d'en retirer des revenus à cause de l'absence d'eau qui n'est pas encore introduite dans cette partie, malgré les demandes réitérées que j'ai faites à ce sujet.

Je réitère ma demande pour la pose des tuyaux tel que demandé antérieurement, et je désire vous avertir que je tiendrai la Cité de Montréal responsable des dommages qui vont m'être occasionnés par ce défaut.

J'ai l'honneur d'être,

Messieurs,

Votre dévoué,

Montreal, 18 Septembre 1908

M. le Président et

MM. les Membres de la commission de l'eau

Hotel de Ville

Montreal.

Monsieur le Président,

Messieurs,

Au commencement de Juillet dernier, je vous écrivais pour appuyer une requête qui avait été présentée à votre comité quelques jours plus tôt demandant la pose des tuyaux devant fournir l'eau sur la rue Papineau entre les rues Mont-Royal et Gilford.

Depuis ce temps, des tuyaux ont été posés à partir de la rue Mont-Royal sur une distance de trois cents pieds et j'apprends que la compagnie a donné l'ordre de discontinuer la pose de ces tuyaux pour cette année, et je tiens en conséquence à protester auprès de votre comité contre tout délai nouveau comme quelques uns de mes logements seront occupés au premier Octobre prochain.

Je désire en conséquence avertir votre comité que je tiendrai la Ville responsable de tout dommage que je pourrai subir par le fait du manque d'eau.

Espérant que vous voudrez bien prendre cette lettre en bonne considération, je demeure,

Votre humble serviteur,

E. Trischal

Re STATE OF PAVEMENT OVER WATER PIPE RECENTLY LAID
IN ST. CATHERINE STREET. BETWEEN PEEL AND BLEURY.

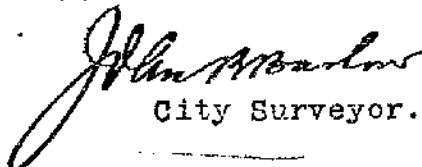

Dear Sir:-

I beg to inform you that I have received numerous complaints from merchants on this part of above street, about the mess and dirt caused by the loose earth on top of this cut which has been spread all over the north side of the street.

I, therefore, wish you would issue orders to have the earth on the top of this cut removed and replaced with macadam, until such time as the pavement can be properly repaired.

Your early attention to this matter would oblige,

Yours truly,

City Surveyor.
