

City Hall

Montreal

Sept. 4, 1909

Mr. Geo. Janin, Sup't,  
Montreal Water Works,  
City Hall.

Dear Sir:-

Confirming yours of even date in reply to mine of the 1st instant, in re pipe laying and macadamizing work in Milton Street, between St. Urbain and University Streets, I beg to state that in the list submitted by you on the 14th of June last, Milton, between St. Urbain and a point about 100' west of Mance, appears in the 1st category, and the portion of Milton Street, west of the above point to University Street, appears in the 3d category, which category includes streets wherein it is proposed to lay water pipes at some future time, but it does not state when such proposed pipes shall be laid, and the information it contained is too vague to be of service to me.

I wish you will in future endeavor to forward me a list of the streets wherein your Department shall lay pipes soon after the appropriations to defray the cost thereof will have passed Council. Such a list would enable <sup>me</sup> to know positively the location of the streets wherein water pipes will be laid.

Yours truly,

*John M. Baker*  
City Surveyor.

Monsieur Georges Janin,

Surintendant du Département de l'Aqueduc.-

RE Canadian Northern Quebec Railway.  
Requête devant le  
Bureau de la Commission des Chemins  
de fer, - Ottawa.

Cher monsieur:-

J'ai reçu en temps, à Ottawa, les papiers que vous m'avez fait adresser pour faire une requête devant la Commission des Chemins de Fer, dans l'affaire ci-dessus, à l'effet d'obtenir la permission, pour votre département, de faire passer des tuyaux à l'eau en-dessous de la voie ferrée de la dite Compagnie, à la rue Nicolet, Hochelaga.

L'assistant-solliciteur de la Compagnie, de Toronto, se trouvait heureusement appelé devant la Commission, pour une autre affaire, et j'ai pu présenter la requête devant la Commission, sans lui donner un avis de quinze jours, avant la clôture de la séance de la dite Commission, et sans passer par les formalités ordinaires d'inscription.

L'avocat de la Compagnie a attiré mon attention sur la description du nom de la Compagnie, qui s'appelle la "Canadian Northern Quebec Railway", et non "Canadian Northern Railway". Afin que la procédure soit régulière, je vous avise de faire cette correction sur vos plans, que j'ai faits à la main, cependant, dans les copies de plans laissées à Ottawa avec ma requête,

*Hôtel de Ville*

*Montréal*

19

-2-

mais je préférerais en cas de difficultés, plus tard, que la chose soit rectifiée, et j'adresserai trois nouvelles copies ainsi corrigées au Secrétaire de la Commission des Chemins de Fer, à Ottawa, quand elles seront prêtes.

L'avocat de la Compagnie, avant de donner un consentement définitif, m'a demandé d'en référer à l'avocat en chef de la Compagnie, à Toronto, attendu que n'ayant eu aucun avis préalable de la présentation de cette requête, il n'avait pas toute l'autorité voulue pour consentir à l'octroi immédiat de la dite requête, mais j'ai insisté sur le fait que le Département de l'Aqueduc voulait procéder avec urgence, et quand toute la procédure sera régularisée, comme je l'ai dit plus haut, je suis convaincu qu'il n'y aura plus de retard possible.

Veillez me croire, cher monsieur,

Votre bien dévoué,

*J. L. Beauchamp*

Avocat de la Cité.

Montreal,

Montreal, 18 Septembre., 1909.

Mr. Geo. Janin,

Surintendant,

Aqueduc de Montreal,

M o n t r e a l.

Cher Monsieur:-

Actuellement le Departement des Chemins est a faire paver en asphalte la rue Montcalm.

A cet endroit, j'ai ma Residence privee et je voudrais avoir un service d'eau d'un pouce de diametre afin de ne permettre de me servir de deux cabinets que j'ai chez moi et qui ne peuvent fonctionner avec un service plus petit.

Je me propose egalement de batir Printemps prochain au coin des Rues Montcalm et Dorchester et avant que la rue soit pavée en asphalte, je voudrais faire entrer trois services d'eau afin d'éviter d'ouvrir la rue Printemps prochain et d'y pratiquer des ouvertures aussitôt pour ainsi dire qu'elle aura été faite a neuf.

Je pourrais rencontrer votre Inspecteur au jour et a l'heure qu'il m'indiquerait afin de lui demontrer ce que je desire et je puis garantir d'avance qu'il n'y aura point de changement a ces services d'eau

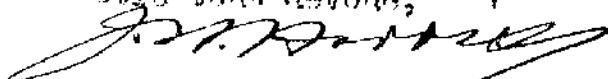

J. W. Harris,  
Montreal.

-2-

Printemps prochain, lorsque je construirai, et si toute-  
fois il y en avait, je m'engage à en supporter le coût  
personnellement.

Si vous trouvez moyen d'accéder à ma demande,  
vous obligerez beaucoup,

Montreal, September 23, 1909.

George Janin, Esq.,

Superintendent Montreal Water Works,  
City Hall.

Dear Sir,

RE Lepage -vs- The City of Montreal.-

Will you be good enough to advise our department as to whether there were two contractors who had separate contracts with the City of Montreal and who were carrying on works in the rear of the premises of Mr.Lepage.

This Mr.Lepage has brought an action in damages against the City, because his premises would have been flooded, and our office called Mr.McGovern in warranty ; after reception of the plea from the attorneys of Mr.McGovern, we ascertained that the work which did the damage was not caused by him but by another contractor, a Mr.Leahy, whom we always presumed was a subcontractor of Mr.McGovern.

Would you kindly advise our department as to whether Mr.Leahy or Mr.McGovern had the contract with the City of Montreal for the works which caused the damages. I think Mr.Sullivan, of your department, could promptly advise us on this question.

Yours truly,

Dict.

 Superintendent  
 Montreal Water Works  
 Montreal  
 Dear Sir

Will you be good enough to  
 have the water services put in  
at once, at my houses on St. Antoine  
 Street corner of Chatham Street,  
 Nos. 3564, 358, 3584, 360, 3604, 362, 3624, & 364 St. Antoine.  
 The alterations made necessary by the  
 widening of the street, are complete in  
 some of them & the others will be ready in  
 a few days; and they are nearly all  
 rented with the tenants waiting to  
 move in. Your early attention  
 will much oblige

Yours truly  
 J. M. M. Duff

The Corporation of the City of Montreal,  
City Clerk's Office,  
City Hall, Montreal.

Dear Sirs:-

We beg to notify you, on behalf of Messrs Peppard-Cairnie & Co. of this City, that they have done work for Mr. Patrick McGovern on the Montreal Lateral Conduit, to the extent of \$974.00, for which they have not yet been paid. The work consisted of excavation for sub drain, and Mr. McGovern, who holds a contract from the City of Montreal for the construction of this conduit, has repeatedly promised to pay this amount, but has failed to do so. Messrs Peppard-Cairnie & Co. are also entitled to receive interest on the sum @ 6% from the 15th of December last, amounting to \$44.00, and making the claim in all \$1018.60. We would ask you, therefore, to withhold payment of the amount of \$1018.60 from Mr. McGovern until such a time as the sum due our clients has been paid by him.

Yours truly

*Vipond & Peppard*

To Mr Geo Gamm  
Supt Mon. L. Works

Dear Sir

We require some additional water service to our Patrol and Limb shops at Corner Ann and Ottawa St as recently 5006 more taps have been installed which the present 3/8 lead service cannot supply when our stables are rising - As Ann St is now being concreted previous to repaving going down would it be possible to install another service for us at once. If you prefer we will do the necessary excavation so that all you need do is send and install the lead service and meter - as concrete will be up to this point in 2 days would you send it over - or phone us if we can do the excavation

Yours truly,

Toronto, Sept. 28, 1909.  
Canada

Dear Sir:-

We have due receipt of your favor of the 27th,  
also the sample part of Revolution Counter referred to  
is to hand, and we advise price for new part  
(a duplicate of that received) at \$3.25.

We will require the part sent us to use in  
making new pieces, and shall retain same until we hear  
from you whether price is satisfactory and you wish us  
to make these new parts.

In regard to repairing Steam Gauge and other  
Gauges, we would say that, as manufacturers of these  
goods, we can give attention to any work of this kind  
that may be required, but we could hardly give you any  
estimate for such work, which you will understand  
depends entirely upon the amount of labor or new parts  
that are necessary on each.

The cost for repairs to the ordinary 5" Pressure  
Gauge usually ranges from 75¢ to \$1.25 each. Other  
Gauges according to the amount of time and new parts  
that may be necessary.

Should you send us any work of this kind for  
attention, we would be pleased to put same in necessary  
repair at as reasonable a cost as possible.

Yours very truly,

C.E.M.

Cher monsieur,

RE Permission de placer des tuyaux à l'eau,  
aux rues Nicolet et Valois ; Canadian  
Northern Quebec Railway Company.-

Je vous transmets avec la présente, copie d'un consentement que m'adresse l'assistant solliciteur de la compagnie ci-dessus, en rapport avec la demande que j'ai faite à Ottawa lors de mon dernier voyage, pour représenter la Ville devant la Commission des Chemins de Fer du Canada.

Je désire savoir si les conditions apposées à ce consentement vous conviennent, au point de vue technique ; je crois que la demande contenue dans ce consentement est raisonnable. Cependant si vous avez quelque remarque à me faire, veuillez me les indiquer car je suis obligé de retourner devant la Commission à Ottawa, pour une autre affaire de la Ville fixée pour le 5 octobre. Vous me retournerez les papiers en question avec votre réponse.

Votre tout dévoué,

Avocat de la Cité.-

REFER TO M./1014-13-5.

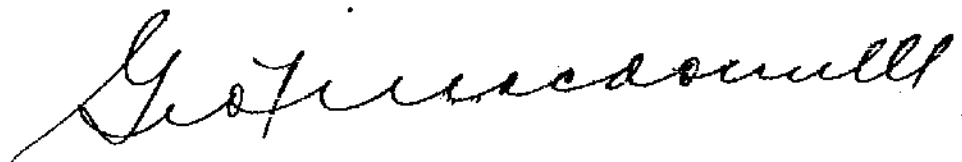

J. L. Archambault, Esq.,  
Solicitor for the City of Montreal,  
Montreal, Que.

Dear Sir,

Referring to your application for authority to place water pipes under the Canadian Northern Quebec tracks at Ontario and Valois Streets, I enclose a copy of a letter which I am to-day sending to the Secretary of the Board of Railway Commissioners in this matter.

Yours truly,

(Encl.)

Assistant Solicitor.

(Copy)

September 27th, 1909.

A. D. Cartwright, Esq.,  
Sec'y, Board of Railway Commissioners,  
Ottawa, Ont.

Dear Sir,

Referring to the application of the City of Montreal to put water pipes under the Canadian Northern Quebec tracks at Ontario and Valois Streets, I may say that the Canadian Northern Quebec Railway Company does not object to an Order being issued accordingly, providing it contains a condition that the Applicants carry the 8 inch pipe within a 12 inch pipe where it passes under our tracks and for 6 feet on each side to prevent the track being washed away in the event of the water pipe bursting, the object of this being to enable the larger pipe to act as a drain; and provided also that, as usual in such cases, the Applicants perform the work at their own expense and pay for the services of a watchman, appointed by our Company, to see that our tracks are kept safe and everything restored in the same condition as at present.

I am sending a copy of this letter to Mr. Archambault, Solicitor for the City of Montreal.

Yours truly,

"Geo. E. Macdonnell"

Mr Geo. Janin,

Superintendent Montreal Water Works,

C I T Y.

Dear sir:-

We have taken the matter up with Mr Scofield the Manager of the Sprinklered Risk Department of the Canadian Fire Underwriters Association in reference to you only giving us a 6" main from the high power into the Jacobs building.

We sent him a copy of your letter and beg to enclose you copy of his in return and we would be pleased to have you let us know if you could not stretch a point and give us an 8" connection into the Jacob building .

Your early attention to same will greatly oblige.

Yours truly,

Dict. R. J. M.

331 Craig Street West.,  
C I T Y.

Dear Sir:-

JACOBS BUILDING ST. CATHERINE STREET.

We have yours of the 2nd Inst., enclosing one from Supt. Jamin of the Waterworks, with reference of the connection from the high level main to this building.

We note what the Waterworks Authorities state, we can only say in reply that they have already given an 8" connection from the high level main to the sprinkler system in the Carsley uptown store, formerly occupied by the Scroggies.

Kindly take up the matter again, and let us know.

Yours respectfully,

(Sign) E. L. Scofield.

Manager, Sprinklered Risk Department.

Monsieur Geo. Janin  
 Ing. en Chef & Surint.  
 Dep. de L'Égouement  
 Hôtel de Ville

Monsieur

Pour donner l'eau à la maison de M<sup>r</sup>. J. Pittudge qui est située rue Chabot-Dorimier, au nord de la voie du "Canadian Pac. R.", il faudrait couvrir une conduite d'eau de 8" Dia. de 575 pds. Long, dont 200 pds. dans le roc, une partie de ce roc en passant sous la voie ferrée du C.P.R., la balance 325 pds. dans la coupe du canal d'égout:

575 pds. tuyau 8" - roc etc - - - - - 1985.00

Votre tout dévoué

1908 Chabot Aug 30/09.  
City.

Water Dept.

City Hall.

Please expediate work on getting water in on Chabot Ave. above C.P.R. track as we are entirely without supply. & in the meantime see that we are supplied by some means till the water pipes are in.

I might further add we are desirous of building more houses near the present house but cannot do so till we get the water

Yours Very Truly

L. Hittredge

Dear sir:-

As per verbal conversation with you on even date, kindly have placed in for us at the new Jacob building corner St Catherine and St Alexander Street 1- 4" main from St Catherine Street service to the Western part of building and 1- 4" service from St Alexander Street to the South-East part of the building.

These mains to be used for domestic purposes only.

Yours truly,

W. J. MCGUIRE & CO., LIMITED,

Montreal, August 28 1909.

Mr. Geo. Janin

Chief Eng. &amp; Supt.

Montreal Water Works Dept.  
City Hall

Dear Sir

In answer to the inclosed application of Mr. W. J. McGuire & Co Ltd., for two domestic water services, to supply the new Jacob's building corner St. Catherine & Alexander, 1/2" to be connected on the 6" main on St. Catherine St. and into the building by his North West corner, and the 4" service to be connected on the 8" main on Alexander St. and into the building by his south East corner. I have the honour, to report and recommend you, that, in my opinion, the 4" domestic water service asked by Alexander Street shall be sufficient.

Your obedient servant

A. J. P. of Alexander

334 CRAIG STREET WEST

~~400 West Avenue~~

Montreal,

August 24th.

1919

Mr Geo. Jenin,

Superintendent Montreal Water Works,

C I T Y.

Dear sir:-

Kindly have placed in for us at the new Jacobs building  
St Catherine Street corner Alexander Street 1- 4" water main and  
1- 2 1/2" water main. These for domestic purposes only.

There are to be placed in the building up wards of 240  
plumbing fixtures and quite a number of these W.C's are on the  
volumeter principal fed direct from pressure. You will therefore see  
it will be necessary to have the above sizes for same and furthermore  
it is their intention to put four stories more on these buildings.

We merely give you this information so that you will see why  
we require such large size services for domestic purposes and we  
would request you to have same installed as soon as possible.

The 8" high pressure main which we are asking for sprinkler  
purposes might be placed in one of these cuts.

We would be pleased to show your man where we require  
same as soon as you are ready to install ~~same~~ and as these are in a  
great hurry we would kindly request you to have them placed in as  
quickly as possible.

Yours truly,

*R. J. McBanley*

Mr. Geo. Janin, Sup't,  
Montreal Water Works,  
Montreal.

Dear Sir:-

In answer to yours of the 31st ult., in reference to the water pipe you propose laying in Milton Street, between University and St. Urbain Streets, I beg to inform you that we did not intend to repair the roadway of Milton Street, east of University Street,

At the same time, I wish to state that I was not aware that your Department was to lay a pipe in the above-mentioned part of Milton Street, and that I have not as yet received from you a list of the streets wherein your Department proposed to lay water pipes this season.

Will you kindly forward me a list of such streets without delay, and oblige,

Yours truly,

*John A. Babin*  
City Surveyor.

*Dear Mr. Janin*

1218

1-9-09

Commissaire de la Ville de Montréal

Ville Emard

31 d'août/09

Messieurs les membres du  
Comité de l'égout  
Montréal.

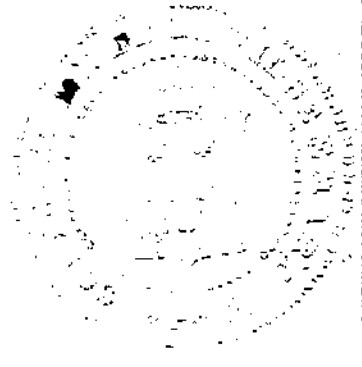

Honorable Messieurs

Les membres  
du conseil de la Ville Emard  
désire vous rencontrer pour  
discuter sur l'opportunité d'une  
nouvelle prise d'eau nécessaire  
au besoin de cette municipalité,  
je suis chargé de vous de-  
mander si vous pourriez nous  
accorder cette entrevue et de nous  
fixer l'heure et l'endroit où elle pour-

ra été tenue.

Je demeure respectueu-  
sement votre dévoué.

L. E. Feltre Sec. Trés.  
# 191 Davidson, Ville Emerald

Extrait des minutes d'une assemblée du conseil municipal de la ville Ennaco tenue aux lieu et heure ordinaires des séances du dit conseil le 7 Septembre 1909 sous la présidence de Son Honneur le maire L. Dubois, étaient présents M. les échevins H. Hamel, E. Robillard, E. Charbonneau, J. Nantel, J. Gibeau + T. Lafontaine formant le conseil au complet.

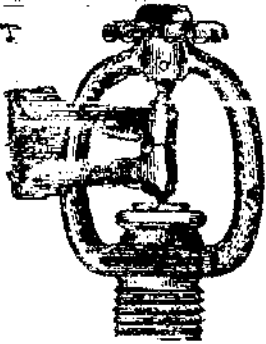

Attendu que la Cité de Montréal introduira l'eau prochainement dans la nouvelle conduite de l'Agueduc et vu qu'il sera alors à peu près impossible de joindre aucun tuyau avec cette conduite, il est proposé par M. l'échevin Gibeau secondé par M. l'échevin Hamel que permission soit accordée à la ville Ennaco de joindre le tuyau actuel servant à alimenter le puits de pompage de son agueduc avec la nouvelle conduite de la Cité de Montréal, vu que l'eau de l'Agueduc de Montréal s'introduit par gravité seulement dans le puits de pompage de l'Agueduc de ville Ennaco, celle-ci dans le but de tenir le niveau de l'eau aussi élevé que possible dans le puits de pompage de l'Agueduc de Ville Ennaco afin de faciliter le fonctionnement de la pompe que le tuyau de 8 pouces soit remplacé par un tuyau d'un diamètre de 16 pouces.

Adopté

Vrai Copie.

Geo. Janin Esq.

Superintendent Montreal Water Department.

City Hall.

City.

Dear Sir :-

We would thank you to advise Messrs. Darling Bros. Limited, Queen st. City, the amount necessary for them to deposit to cover the cost of six inch connections to the street mains, one on Ottawa and one on Prince street, to supply the sprinkler system which we are about to install in their New Warehouse corner Prince and Ottawa streets.

Thanking you in anticipation of your kind and prompt attention to the above, we are,

Yours very truly,

The Standard Automatic Fire Sprinkler Co.,  
Limited
