Sir

When computing the extra premium for Carpenter's Risk on the New Market Hall yesterday I find that I committed a great error, in charging but £5- or 2 1/2 p'ct - instead of £4 11/16 or 3 1/2 p'ct. the real premium for two months for such risk.

I therefore trust you will be kind enough to cause the difference to be paid. &

I take leave to call your attention to the necessity of having the holes ~~of~~ in the Road round the Market filled up to accomplish which, I believe it only requires your Committee to request the same may be attended to by the Roads Committee; and at the same time I beg to state the very great nuisance arising from the Privy adjoining my Office which the Surveyor says can be remedied at a very trifling expense by carrying the Soil into the Canal which passes under the Weigh House
