The Cas Consumers Penefit Company

OF CANADA.

1776 NOTRE DAME STREET, MONTREAL.

TO THE GAS CONSUMERS OF MONTREAL.

After a trial of six months in this city and Quebec, during which time the "Jackson Gas Burner" has passed through many severe tests, it affords us much pleasure to be able to say that in every case it has shown its superiority over all other gas savers, and has effectually solved the vexed problem of how to reduce large gas bills. With this Burner, there is no need of a Meter Governor, as the pressure is controlled at the point of ignition instead of at the meter.

The past quarter has been unprecedented for increased gas bills, but in every case the "Jackson Burner" has made important savings. With your permission we will be glad to make a trial test on your premises, feeling sure of the result.

The "Jackson" is acknowledged to be the only scientific pressure Gas Burner in the market. The price has been fixed at the low rate of 40 cents for any number under fifty. From fifty upwards we give a graded scale of discounts, and guarantee every burner for THREE YEARS.

The following letter from Rev. Father Garceau is one of many certificates which we can submit.

DEAR SIR,—In reply to your letter of 17th inst., I am happy to say that upon comparing our gas bills for the quarter ending February 1st, 1887, with that ending February 1st, 1888, I find a saving of \$60 in favor of the Jackson Burner.

Pear Sira-

The managers of the American Fat Stock Show have endeavered to do everything that human skill am ingenuity could devise endourage and stimulate the production of the finest and most emotitable grades of cattle and other live stock for human food.

The American Fat Stock Show is the recognized normal school for the breeders and feeders of the world and its importance, great value, its ne assity and its permanency as an educator, are all fixed facts. In the opinion of the management the time has come when its field of usefulness can be safely enlarged and some recognition extended to the thousands who labor to prepare the live stock for market. Skilled butchers are the exception and in order to direct attention to this metter an exhibition will be given in the Exposition Building in connection with the next American Fat Shock Show and premiums offered for skill in killing and dressing eable and to which you are requested to invite the butchers of your City to attend.

Six hundred dollars will be offered in premiums for the slaughter contest. - the first of three hundred dollars, the second of two hundred dollars and the third of one hundred dollars.

Three practical butchers of known character and integrity will be selected to make the awards.

The rules and regulations for the competition will definitely prescribe the conditions of the trial and will be sent to such party as you may designate to represent your City in the contest.

It is believed that the most exillful of butchers will be found among the men who will compete for the primes offered and that the exhibition of their skill will be of great interest and benefit to the thousands of butchers who annually attend this great show from all portions of the United States and Cameda to examine and purchase for the holiday trade the best specimens of meat animals to be found in the world. You are respectfully requested to appoint a Committee consisting of three practical butchers and authorise them to select the butcher to represent your City in the trial.

Yours truly,
