REPORT OF THE "INSPECTOR, SUPERINTENDANT & CHIEF ENGINEER"

On the Fire which took place on the 14th day of January 1847

Locality.	Origin of the Fire as far as can be ascertained.	Extent of Property Consumed, the names of the individuals to whom it belonged, estimated loss, whether it was covered by insurance, and at what office or offices.	Time and Order of Arrival of the respective Fire Engines, and under whose Command.	Remarks on the Conduct of the Officers and Engine-men.	General Remarks on the Efficiency of the Water Plugs, &c.
<p>Notre Dame Cathedral at 8 o'clock P.M.</p>	<p>Not known</p>	<p>A the dry stone Building occupied as Shops and Dwelling the property of James Ferrer Esq., Insured in the Montreal Insurance Office in the amount of £700, damaged to the amount of £700.</p> <p>The above Building being occupied by Mr J Deane & Co goods Merchants whose stock was insured in the Montreal in the amount of £2000, by amounting to £</p> <p>The other part occupied by Mr</p>	<p>121. Porter Capt. J. J. J. Haver Capt. J. J. J. Holloway Capt. J. J. J. John Orr 4 Union Capt. J. J. J. William Meier 5th New Capt. J. J. J. Michael Mason 6th Montreal Capt. J. J. J. Alexander Bontoux 7th Napton Capt. J. J. J. A. M. Naughton 8th Mutual Capt. J. J. J. J. P. Lisson 9th Hook & Ladders Capt. Watson 10th Queen Capt. J. J. J. William Spear</p>	<p>On this occasion I have to complain of the conduct of Captain John Orr of the Phoenix Fire Company No. 1.</p> <p>Captain Orr thought proper to order his Company to take the position I had ordered them to take, and after they had been working some time, Captain Orr not being present, at the time the order was given, and did hear and grieve his men for a considerable length of time against me, which led to considerable confusion and trouble.</p> <p>It was also discovered sometime after the fire had been progressing that the plugs had not been fully opened which very materially prevented the supply of water, as it was afterwards seen on examining them, that the force of water was much greater, or nearly double, I made a searching enquiry into the cause of this but without any success.</p> <p>The Plug in front of the premises on fire was frozen. The plugs in the neighbourhood was used but the supply was weak owing to the force of water being so divided by so many of the plugs being open at the same time.</p>
