### E X P L A N A T I O N

Look for the New or Full Moon under the year, and to the right or left in the same line, under the month stands the day of New or Full Moon.

Look under the month for the day of the month, and in the same line under the year, stands the Moons age for that day.

Note. In leap years after February the New and Full Moons will happen a day sooner than given in the table.
