Montreal 27th March 1872

A Son Honneur Le Maire
et a Messieurs les Echevins et
Citoyens de la Cité de Montréal

La Requête des Soussignés, citoyens de la
Cité de Montréal,

Expose Respectueusement

Que dernièrement, une Requête signée par des personnes inconnues, seulement comme Lancieaux & Paquette, sans prénoms, ni occupations, demandant la permission d'ériger un engin à Vapeur sur le lot numero 16, de la rue Perthuis de la Cité de Montréal a été soumise a votre Honorable Conseil, par lequel Conseil elle a été référée au comité du feu.

Que vos Requerants s'opposent formellement a et protestent energiquement contre l'érection d'un tel engin, pour plusieurs raisons, entr'autres les suivantes:

1.º Parceque le terrain où Lancieaux & Paquette veulent ériger cet engin est bien trop petit pour des batisses de cette nature et qu'il y aurait un grand danger pour tous les voisins et tous les autres Sujets de Sa Majesté passant et repassant dans la dite Rue Perthuis ou la Rue Sacroix, qui ferment l'encoignure de ce lot, en cas d'explosion de cet engin, les Requerants ne faisant mention que du lot N.º 16 sur la Rue Perthuis, et non d'aucun autres lots sur les Rues Sacroix et Prousseau.

2.º Qu'ils sont déjà surchargés d'une nuisance telle causée par l'engin à Vapeur possédée par Mme Veuve Hood, sur la dite Rue Perthuis, en face du lot N.º 16 sus dit, qu'il n'est possible d'exposer du linge en dehors quand le vent porte dans la

direction de leur propriétés, qu'il n'est pas possible de laisser une croisée ni une porte ouverte, au grand détriment de la santé des familles de vos Requerants à cause de la fumée et de la suie qui y sont portées en très grande abondance de même que l'humidité de la vapeur.

3° Que le bruit causé par cet engin et les machines y attaché est tel qu'il devient une nuisance publique troublant le repos de tous les voisins même à une bonne distance.

4° Que les ripes et les copeaux fait de bois sec, par les machines attaché à cet engin dans un endroit si petit et sur deux Rues si étroites, mettraient en grand danger toutes les batisses des voisins à leur grand détriment.

C'est pourquoi vos Requerants pour les raisons ci haut énumérées et pour plusieurs autres qu'ils feront connaître en temps et lieu si on leur donne le loisir d'être entendu ose esperer que Votre Honorable Conseil refusera les conclusions de la dite Requête de Lamicieux & Paquette, ou bien se préparera à payer pour toutes les détériorations et compensations pour dommage causés par son acte en accordant telle licence ou permission, ce qu'ils ne cessent de demander respectueusement.

To The Chairman and Members
Of the Fire Committee
Gentlemen,

Last fall, we
petitioned the City Council for
permission to erect a steam boiler
and engine on our premises situate
428 Craig street - the boiler to be placed
in the basement of said premises. This
petition was referred to your Committee
and by it submitted, in the usual
manner to the Inspector of Buildings,
Mr. O. Raillard; who reported favor-
ably. But, since then, we have alter-
ed our plans as to the locality
where such boiler should be placed,
and hereby respectfully request that

your honorable body do permit
us to erect the same on the first
floor of the premises above
mentioned.

Trusting that you shall
take this matter into your immediate
consideration.

We remain, Gentlemen,

Centre Ward

9th February
to the City

Province de Québec
District de Montréal

O Son honneur Le Maire
à Messieurs les Échevins & con-
seillers de la Cité de Montréal,

L'humble requête des soussignés propriétaires & résidents de terrains du lot de terre voisins sur les rues ci-après mentionnées,

Expose respectueusement

Que dernièrement une requête présentée par des personnes inconnues seulement comme "U. & J. Paupé" demandant la permission d'ériger un engin à vapeur sur le lot 490 sur le cadastre au Ligne des Terroirs officiels pour le quartier St. Marie & faisant le casinet des rues Craig & Lanet en la dite Cité de Montréal a été soumise à votre Honorable conseil par lequel conseil elle a été referée au Comité d'usage.

Que vos requérants s'opposent formellement & protestent énergiquement contre l'érection d'un tel engin pour plusieurs raisons entre autres les suivantes:

1^o Parceque le terrain au lot 490 U. & J. Paupé veulent ériger, cet engin est bien trop petit pour des batteries de cette nature & qu'il y aurait un grand danger pour

vous

tous les voisins & tous les autres sujets de
Sa majesté passant & repassant dans les
rues susdites, en cas d'explosion de cet engin.

Les susrequérants ont la certitude
qu'un tel tel engin à vapeur est une grande
nuisance dans le voisinage, par le rapport
du danger pour le feu, & très dommageable
par la fumée qui est poussée par le vent
dans les maisons voisines et même à une
grande distance, par la mauvaise odeur
que cette fumée donne & répand, par le grand
bruit causé et par l'engin & par les machines &
par plusieurs autres rapports & surtout sur
un terrain aussi petit & dépeuplé de beaucoup
les propriétés voisines à leur grand dommage.

Qui même dans les lieux où de
semblables engins sont érigés et en opération ils
sont considérés comme des nuisances pu-
bliques, qu'il est impossible d'exposer du
linge en dehors quand le vent porte dans la direc-
tion de leurs propriétés, qu'il est impossible de lais-
ser une croisée ou une porte ouverte, au grand
détournement de la santé des familles des susrequérants
à cause de la fumée & de la saie qui y sont portées
en grand abondance de même que l'humidité
de la vapeur.

C'est pourquoi les susrequérants pour
les raisons susdites & plusieurs autres qu'ils
feront connaître en temps & lieu si on
leur donne le loisir d'être présent & entendu.

ne espérer que votre Honorable conseil
sera les conclusions de ladite requête des
dits H. & J. Paupé, au de l'autre au lieu de
d'autre au même but, ou bien se préparer
à payer pour toutes les détériorations & compen-
sations pour dommages causés par son
acte en accordant telle licence ou permission

Ce qu'ils necesseront de demander
respectueusement

for leave to erect
Steam Engines.

Presented, 24 April 1872

Attest meeting

Adopted, 22^d May 1872

Entered vol 9. 2
pages 54 & 55

To his Honour, the Mayor, the Aldermen and
Councillors of the City of Montreal.

Gentlemen

We, the undersigned, knowing that Messrs.
Lanctôt & Paquette, manufacturers of this city
have made application to our honorable City-Coun-
cil, to the purpose of establishing a manufacture
of Doors, Sashes, Mouldings, etc. on their lots, La-
croix & Perthuis streets, and seeing that it is
our own interest, as much as it is to the citizens
of Montreal, to encourage such manufactures,
which is a step to the progress of this Country, espe-
cially to this city. Request that their demand to
put a Steam-engine on their property be "granted".
Confident on your good-will and hoping that you
will condescend to our request, we have the honor
to subscribe ourselves, with much esteem

A son honneur le Maire, les Chevins et
Conseillers de la ville de Montréal

Messieurs

Ayant vu et sachant que Messrs. Lanciaux et
Paquette, manufacturiers de cette ville; ont fait
application a notre honorable conseil-de-ville dans
le but d'établir une manufacture de portés,
chablis, moulures, etc, sur leur terrain, rues Per-
thuis & Lacombe, et que d'après notre conviction,
il y va de notre propre intérêt, ainsi que celle des
citoyens de Montréal, d'encourager ces manufac-
tures; qui ne peuvent qu'avancer le progrès de
ce pays, et surtout celui de cette ville; Nous, sous-
signés, requérons, que leur application pour instau-
rer un engin a vapeur sur leur propriété leur
soit accordé, nous confiant a votre bon vouloir
et espérant que vous voudrez bien acquiescer a nos-
tre requête; nous avons l'honneur de vous sou-
crire, avec estime et considération

for leave to erect a
Steam Engine, on
Perkins's no 16.
St James Ward

To the Chairman

and Gentlemen of the
Fire Committee

I the Inspector of Buildings, hereby
Certify, that at the request of your Committee,
I have examined the premises of Joseph Robert,
situated on Perthuis St. no 14, St. James ward,
and report, that the plan accompanying the petition
of the said Joseph Robert, is a perfect description
of the place and locality, where he intends to erect
a Steam Engine, on the East side of the place there
are several private dwellings, and on the South &
west side, there is a vacant lot of ground (see plan)
The said contemplated Planing Mill, could not
be placed in a better and suitable place, if mea-
-sures are taken to cause the removal of the annoyance
of the smoke that may emerge from the Chimney
of said Planing Mill, as well as allaying the noise
which may arise from the working of said Mill,
which will dispel the fears that may be entertained
by the Neighbourhood,

Perthuis St.

St James Ward

Perthuis St.

18th April 1872

Province of Quebec
District of Montreal
City of Montreal

To the Chairman and Mem-
bers of the Fire Committee
of the City of Montreal.

The petition of the representatives of the Estate
and succession of the late M^{rs} Julia McFarry
in her life time widow of the late M^r Thomas
McGrath deceased in his life time of the
Said City of Montreal, Gentleman.

Humbly sheweth.

That whereas the said Estate is owner of a
two story brick house erected on the east
side of Wellington street, in the St. Ann's
ward of this Said City, bounded on the
north east side by the ground belonging to
the Corporation of Montreal, on a portion
of which ground is erected the Engine House
or Fire Station N^o 3 whereof the south west
gable or wall is closely joining the north east
gable or wall of the house belonging to Said Estate,
without any Mitoyennete as it never was intended
to be any,

And whereas, in putting up the steeple on
said fire station, pieces of timber were put
through the north east gable or wall of the
Said Estate's house, and fastened to the same,
so that a connection was made between the wall
aforesaid. And the timber work of the said steeple;
And whereas, ever since the bell put in said
steeple for fire alarms, was put in use or
by some other cause resulting from the connec-
-tion of timber work of said steeple with the
north east gable or wall of the said Estate, the

The said north east gable wall, has given way, leaving between it and the roof of the said house (estate's) an open space of between two to two and a half inches through which rain, cold and snow get into the house to the great inconvenience and discomfort of the tenants or occupants of the same;

And, whereas it would be less expensive to fasten five or six strong iron eyes from the outside of the said north east gable or wall of the house of the said Estate to the timber works of the same, your petitioner pray that a sum of twenty Dollars should be allowed them by your Hon^{ble} Committee, the balance of expenses being provided by the said Estate, so as to enable them to put the wall in its former position in a satisfactory manner, and by so doing your Hon^{ble} Committee will do justice, and your petitioners will never cease to pray;

For the petitioners.

J. Spearman acting
for and on behalf of the
said Estate.

Montreal 28th May 1872.

1872

Petition of Henry Spearman

in reference to

mitoyen wall

1872

The Fire — Committee

Respectfully Report,

That, as directed by the Council,
they have considered the accompanying applica-
tions for leave to erect steam engines from the
undermentioned parties;

Messrs Murray & Heron, 114 1/2 St. Jacques, Grey Turnery,
D. Beutly & Co, 10 3/4 St. Denis Street.

Messrs J. H. & J. A. Dauscreau, corner St. Denis & St. Gabriel
St. Lapham, 10 3/4 St. Philippe

and that ~~of~~ ^{the} petitioners have complied
with the requirements of the law—

There being no opposition to the
granting of the said applications, your Committee
recommends that leave be granted them to erect
steam engines on the premises mentioned in
their petitions, subject however to the supervision
and approval of the Inspector of Buildings and with
the express understanding moreover that no steam
whistle shall be used on said premises and
that they shall comply with the requirements of
By-law 1056 to compel proprietors of steam engines
in this city to provide the same with smoke consuming
apparatus.

To the Chairman,
and Gentlemen of the
Fire Committee

I the Undersigned, Inspector of Buildings, of the City of Montreal, Herby Certify that in my opinion it would be extremely dangerous to allow the use of a Portable Steam Engine, for sawing fire wood, throughout the City, such as mentioned in Messrs Snowdon & Richardson's application, and I believe that it would be attended with dangerous Consequences, principally when put in operation in localities where a number of wooden buildings are erected, and where depots of Straw, hay, or Shavings are deposited, which might be set on fire, in case of an accident happening to said Steam Engine, moreover it would be establishing a dangerous precedent that would be followed by others, However the permission may be granted, providing the parties interested in the said Steam Engine consent to not use any other fuel, but only hard Coal, to raise the steam of the said Steam Engine, to prevent Sparks, and nuisance,

Respectfully
Submitted

~~Chairman of the Fire Committee~~ of Montreal

Sir

We the undersigned desire to obtain the permission of the City Council to use a portable steam apparatus for sawing firewood throughout the City. The whole apparatus can be erected on an ordinary four-wheeled platform wagon, to be drawn by one horse. The Engine and Machinery will be so enclosed as to prevent any possibility of communicating fire to surrounding buildings, and as it will only be necessary to fire up where it is to be put in operation, no evil consequences need be apprehended while being removed from one place to another.

It performs the work much more expeditiously, and more economically than by the ordinary process, and its introduction will prove of great service to all consumers of firewood.

Trusting that the above application will meet with a favorable report, when brought under the consideration of the Fire Committee.

We have the honor to be,
Your obed^t. Servants
Snowdon & Richardson

The Fire Committee

Respectfully Report,

That, as directed by the Council, they have considered the applications of the following parties for leave to erect Steam Engines:

James Thomson, Great St James street

A. A. Stevenson, 245 Great St James street.

Moseley, Wigham & Co, 506, 508 & St Paul street.

J. B. Guidi, Guilford street.

James Robertson, 142 William street -

E. J. Carter & Co - 588 Craig street.

Frothingham Workman, 405 St Paul street.

Charles Wilson, 99 St Urbain street.

The Petitioners having, in each case, complied with the requirements of the law, and there being no opposition, your Committee recommend that the permissions sought for be respectively granted, subject however to the superintendence and approval of the Inspector of Buildings, and with the express understanding moreover that no steam whistle shall be used on the premises and that the owners of said steam engines shall conform to and comply with the requirements of By-law, No 56, to compel Proprietors of Steam Engines

Engines in this city, to provide the same with
Smoke consuming apparatus.

The whole nevertheless respectfully
submitted.

To the Chairman,
and Gentlemen of the
Fire Committee

I the Undersigned, Inspector of
Buildings, of the City of Montreal, hereby certify,
that in accordance with the law, at the request
of Frothingham's Workman, I have examined
the four storey stone building, covered with gravel,
situated on St Paul street, no. 405, West Ward,
The boiler of the Engine erected in the rear of the
said stone building, is in the first story, upon
a stone foundation, and surrounded with
work, the place is quite suitable for the
purpose intended for, In consequence of which
this present report is favorable.

of the City of Montreal

The petition of the undersigned, most
respectfully sheweth:—

That your Petitioner, in order to carry on
his business more efficiently, finds it
necessary to erect a Steam Engine in the
premises 245 St. James Street, occupied by him
as a Printing Office.

That having complied with the requirements
of the City By Law, by advertising in four Newspapers
published in this City, 2 in English and 2 in French,
notice of his intention to make this application,
and having also affixed a placard to the same
effect upon the premises in question, copies
of all which are forwarded herewith, the
undersigned trusts that the Council will
be pleased to grant the permission asked
for.

And your petitioner, as in duty
bound, will ever pray. &c. &c. &c.
