Morning Chronicle

Dear Sir:

I have this week made offer to His Majesty's Ministers, in case they will immediately send out Commissioners to confer with Provincials at Quebec & otherwise adopt plans which in a fortnight I can make appear to be at once simple & efficient, to remove 15,000 people to the colonies this year & at least 50,000 annually afterwards with comfort to themselves & profit to the Nation — give instant stimulus to industry in every quarter — draw from the sale of colonial lands half a

Million by the end of  
five years; and in twenty  
have an yearly income  
from the same of five Millions  
& while poor rates are  
reduced to a trifle —

Make this known if you  
incline to assist me &  
despise not my proposals  
till you have attentively  
examined the documents  
annexed to my Appeal  
to the Nation sold by  
Sherwood & Co. — Sales
